What you need to know:

Welcome to the first newsletter of the Florida Department of Education Race to the Top Single Sign-On Project (FLDOE RTTT SSO). We are very excited to make this new resource available to you. The FLDOE SSO Leaders' Advance aims to provide our RTTT Leaders and key stakeholders with the latest highlights and insights from the project.

The FLDOE SSO Leaders' Advance will be sent out periodically and will be available on our website under "[Latest News](#)." We hope you will enjoy it!

Background:

The FLDOE SSO Project will result in the creation of one web address where users will be able to enter one username and password to access a selection of FLDOE applications.

The FLDOE, in partnership with the Single Sign-On Implementation Committee (SSO Committee), has been working to design the Department's Single Sign-On solution. The SSO Committee is comprised of technical and leadership staff from school districts, charter schools, and educational consortia, and is representative of Florida's diversity.

What you need to do:

View the [Webinar Schedule](#) to register for the *Introduction to FLDOE's Single Sign-On* webinar.

Visit the [FAMIS Conference Website](#) to learn more about the FLDOE SSO presentation coming in June.
